- Lot consolidation (re-approval)

Mr. Mazur said this consolidation was approved over a year ago, however, the applicant never recorded the consolidation and it has since expired.

Mr. Frankland displayed an aerial view of the property indicating the two lots to be consolidated. One lot contains a home and the other contains an accessory building. The lots are required by Code to be consolidated. Mr. Frankland said the consolidation will create a 1.92 acre lot. Mr. Frankland noted in order to maintain the lots separately, a variance would be required.

In response to Mr. Mazur's question, Mr. Frankland said he has not seen a plat prepared by a surveyor thus far.

A public hearing was scheduled. Mr. Mazur opened the public hearing and asked for comments.

Mr. Mazur said it would have been preferable to have the applicant present for the meeting.

There were no comments, therefore, the public hearing was closed.

Mr. Mazur said this item will be reviewed by the Safety and Public Properties Committee at their next meeting on September 14th and will, therefore, be tabled.

In response to Mr. Newberry's question regarding the necessity for a lot consolidation, Mr. Frankland said a lot consolidation is necessary along with a public hearing.

Mr. Newberry suggested the applicant take the necessary action to have the lot consolidation added to the agenda for the next meeting.

Mr. Frankland said the applicant would like to begin the project this year.

Mr. Newberry said the lot consolidation is not critical until they seek occupancy of the building.

5. 33505 Solon Road – Matthew Puflea 062-2011
 ▪ Site plan – window modifications

Mr. Steve Ciciretto, Architect, was present and displayed photos of the existing home and explained the changes that are proposed. He said this home is in the historic district and some changes to the windows have been made since the previous plan was approved.

Mr. Ciciretto indicated the windows and said the new plan will maintain the character of the existing windows as well as give the owner much needed wall space since the house is rather small. He displayed the originally approved plan and indicated where the proposed changes would be.

Commission members agreed the proposed window changes would maintain the character of the home.

Motion by Mr. Mazur, seconded by Mayor Drucker to approve the site plan for window modifications.

Roll Call: Aye: Bentley, Drucker, Mazur, Newberry, Richmond

6. 33290 Bainbridge Road – Bharet & Indu Khemsara 063-2011
▪ Site plan – renovations including fence and canopy

Mr. Robert Martien was present and displayed a site plan indicating the building formerly known as Anthony's Beauty Salon. The applicant, Dr. Khemsara, is proposing a veterinary clinic in that location. He indicated an area in the rear yard to be covered with pea gravel that will be utilized as a supervised exercise area for the dogs. He indicated another area where a trash compactor would be located and said both areas would be fenced. Mr. Martien said the entire rear yard is currently being used as a parking lot.

Mr. Martien said the initial plan is to get the business going as soon as possible. Once they are in the building, they will have a better idea of the changes that should be made to it which include an addition. Mr. Martien said the plan is to make the interior changes within the year but not right away.

Mr. Martien displayed a plan indicating a canopy in the rear yard and a side elevation of the canopy. He explained the canopy will be useful to stand under when outside with the dogs during inclement weather and will serve as another entrance. Mr. Martien said there is a canopy over the front door and the two canopies will match. Mr. Martien displayed a sample of the fencing which will be 6' high to prevent the dogs from jumping over it.

Mr. Martien displayed an aerial view of the property indicating the rear property line and explained there is significant pedestrian traffic from the neighborhood and the applicant would like to close the rear yard with a 4' high fence.

In response to Mr. Mazur's question, Mr. Martien said there will be two entrances, one in the front and one in the rear.

Mr. Mazur said if there are changes to the plans, they will be required to be approved by the Commission.

In response to Mr. Bentley's question, Mr. Frankland said although parking will be lost, the parking in the rear was never striped and there is more than adequate parking on site per the Code for the current building and once the addition is built.

In response to Councilwoman Richmond's question, Mr. Martien said Dr. Khemsara also has a practice in Newbury and recently closed one in Euclid.

Mr. Mazur asked if there would be any outside storage such as kennels for the dogs and Mr. Martien said there will be no outside kennels.

Motion by Mayor Drucker, seconded by Councilwoman Richmond to approve the site plan for 33290 Bainbridge Road for a rear yard fence, enclosed dumpster, canopy and a handicapped access ramp.
