

SOLON BUSINESS SPOTLIGHT

The Womb Wellness Center

6200 Som Center Rd Office A24 • (216) 633-2828 • thewombwellnesscenter.com

Owner: Jolynn Radin

IN BUSINESS SINCE 2016

When and why did you choose to locate in Solon?

In May 2016, we relocated from our Pepper Pike location to our current Solon location at 6200 SOM Center Road, A-24.

I spent my childhood in Solon and graduated in the class of 2001 from Solon High School, so I was very familiar with the location! As a young adult, I never really thought I would be back so close to home, but once I had my own family, Solon just felt like the right fit for us to raise our boys. I knew that Solon supported local businesses, and it has been a great fit for The Womb Wellness Center.

What does your business offer?

The Womb Wellness Center offers massage, acupuncture and birth services. We specialize in supporting women's reproductive health and wellbeing.

Our 60-minute prenatal massage is our most popular service, but don't let our name deceive you; we give a great therapeutic massage to people of all ages!

What makes your wellness center unique from other centers like yours?

We specialize in working with women of childbearing years and really take the time to create relationships, tailor our sessions to our clients' needs and suggest self-care tools to utilize between visits.

What can Solon residents do to help support your business?

With all the added stress from the pandemic, a massage is a great way to support your wellbeing and resiliency. Schedule yourself or your loved one a massage or acupuncture treatment or shop local and purchase products or gift certificates for your friends and family. We would love to help support you too!

For the month of October when new clients mention Solon's Business Spotlight when booking, they receive \$15 off their first appointment.
