## **When did you open your business in Solon?**

We opened the Solon Shop in 2001, making this year our 20th anniversary year.

## **Why did you choose to locate in Solon?**

We were excited to serve the Solon community because there is a rich fabric of family-friendly activities that ice cream compliments. Solon offers a variety of youth athletics, theatre and art programming, along with community events and festivals. Having a place to go for ice cream fits so well with these activities. Solon city officials, city service personnel, and community residents have been helpful and supportive over the years, and we are very grateful for the friendships we've made over the past two decades.

## **What is the most popular ice cream flavor at Mitchell's?**

A few of them are Cookies & Cream, Chocolate Peanut Butter Cup, Fresh Mint Chocolate Chunk and Caramel Fudge Brownie, but many people have other favorites, including some of our Vegan Flavors and sorbets.

## **What makes your ice cream unique from competition?**

We try to make the most delicious ice cream we can. Many of our ingredients come from small Northeast Ohio farms, and some are organic and/or fair trade. But the compliment that makes us most proud is to hear from a guest that they were treated in a noticeably helpful and friendly way. Our greatest opportunity is to spread friendliness and kindness to one person at a time through our work.

## **What else would you like the Solon residents to know about your shop?**

Thank you for your friendship and support over the years! We love being a part of the Solon community!
