Why did you choose to locate in Solon?

Solon is a growing thriving community. Over the years, for all of us, Solon has been welcoming and supportive of new concepts. The City Management has been with us every step of the way and we could not ask for better partners. We all felt this would be a great opportunity to add another destination for Solon residents and attract people from all over northeastern Ohio.

What does Birdigo specialize in?

Birdigo specializes in chef-inspired chicken, loaded tots, southern sides and custard.

What makes Birdigo unique?

Birdigo is not fast food in the typical sense. We spent years fine tuning our recipes. When you order from Birdigo, you are ordering a chef-inspired meal. Our food is Southern inspired, quick-serve, fresh, scratch cooking. The Birdigo menu features chicken tenders, sandwiches and rotisserie-style chicken – along with an assortment of sauces, sides, cookies and custards. We are very excited to introduce our tater tot menu featuring a variety of loaded tots. Customers can also order cauliflower bites, with a choice of a sauce and fresh, bright salads.

What else would you like the residents of Solon to know about your business?

We are an enthusiastic community minded restaurant. We will provide our customers with great food and continue to give back to our neighbors.
